05 *The Route*

DISTANCE ONE WAY	~ 600 km	ROUND TRIP	~ 1 200 km
CONSUMPTION	18 kWh / 100 km	ENERGY NEEDED	~ 216 kWh
SC PRICE EU	€0.35 / kWh	SC PRICE UK	£0.40 / kWh (€0.47)
LESHUTTLE TOTAL	€289 (€144 + €145)	FX RATE USED	1 GBP = 1.17 EUR

06 *Fine Print*

- ◆ **LeShuttle pricing** is per vehicle, each way. Booked Short Stay Saver: €144 outbound + €145 return = €289 total. Short Stay Saver applies because the trip is under 5 days.
- ◆ **Uneven split:** Niels + Rune + Kilian + Jany drive out together (outbound split 4 ways = €41.64 pp). Niels + Rune + Wout drive back (return split 3 ways = €64.13 pp). Wout joins in Sheffield - he only pays for the return.
- ◆ **UK ETA** (Electronic Travel Authorisation) is £16 per person, only required if you don't already hold a valid one. ETAs are valid for 2 years or until passport expiry, so if you've been to the UK since April 2025 you may already have one. Apply only via gov.uk or the official UK ETA app - avoid third-party sites that charge extra.
- ◆ **Round trip math:** 1 200 km and 216 kWh already account for both directions. LeShuttle figures above are the full return.
- ◆ **Home charge** before departure is counted as free (already on home tariff). Add ~€18 total (~€4.50 pp) if you want to count it at €0.30/kWh.
- ◆ **Consumption of 18 kWh/100 km** is realistic for highway driving in November with 4 adults plus luggage. Summer or lighter load lands closer to 16.
- ◆ **Not included:** hotel, food, drinks, comp entry fee, Sheffield parking, post-comp pints.
- ◆ **Timezones:** UK is 1 h behind CET in November (no DST in either).
